

PLAN MAP 2 Future Spatial Structure for Greater Kampala Urban Growth Area (2024-2050)

Legend

Urban Centres

- Primary Urban Centres
- Secondary Urban Centres
- Urban Sub-Centres
- Metropolitan Centres
- Suburban Centres
- Strategic Centres
- Service Centres
- ▭ Industrial Growth Corridors

Transports

- Expressways
- Major National Roads
- Railways

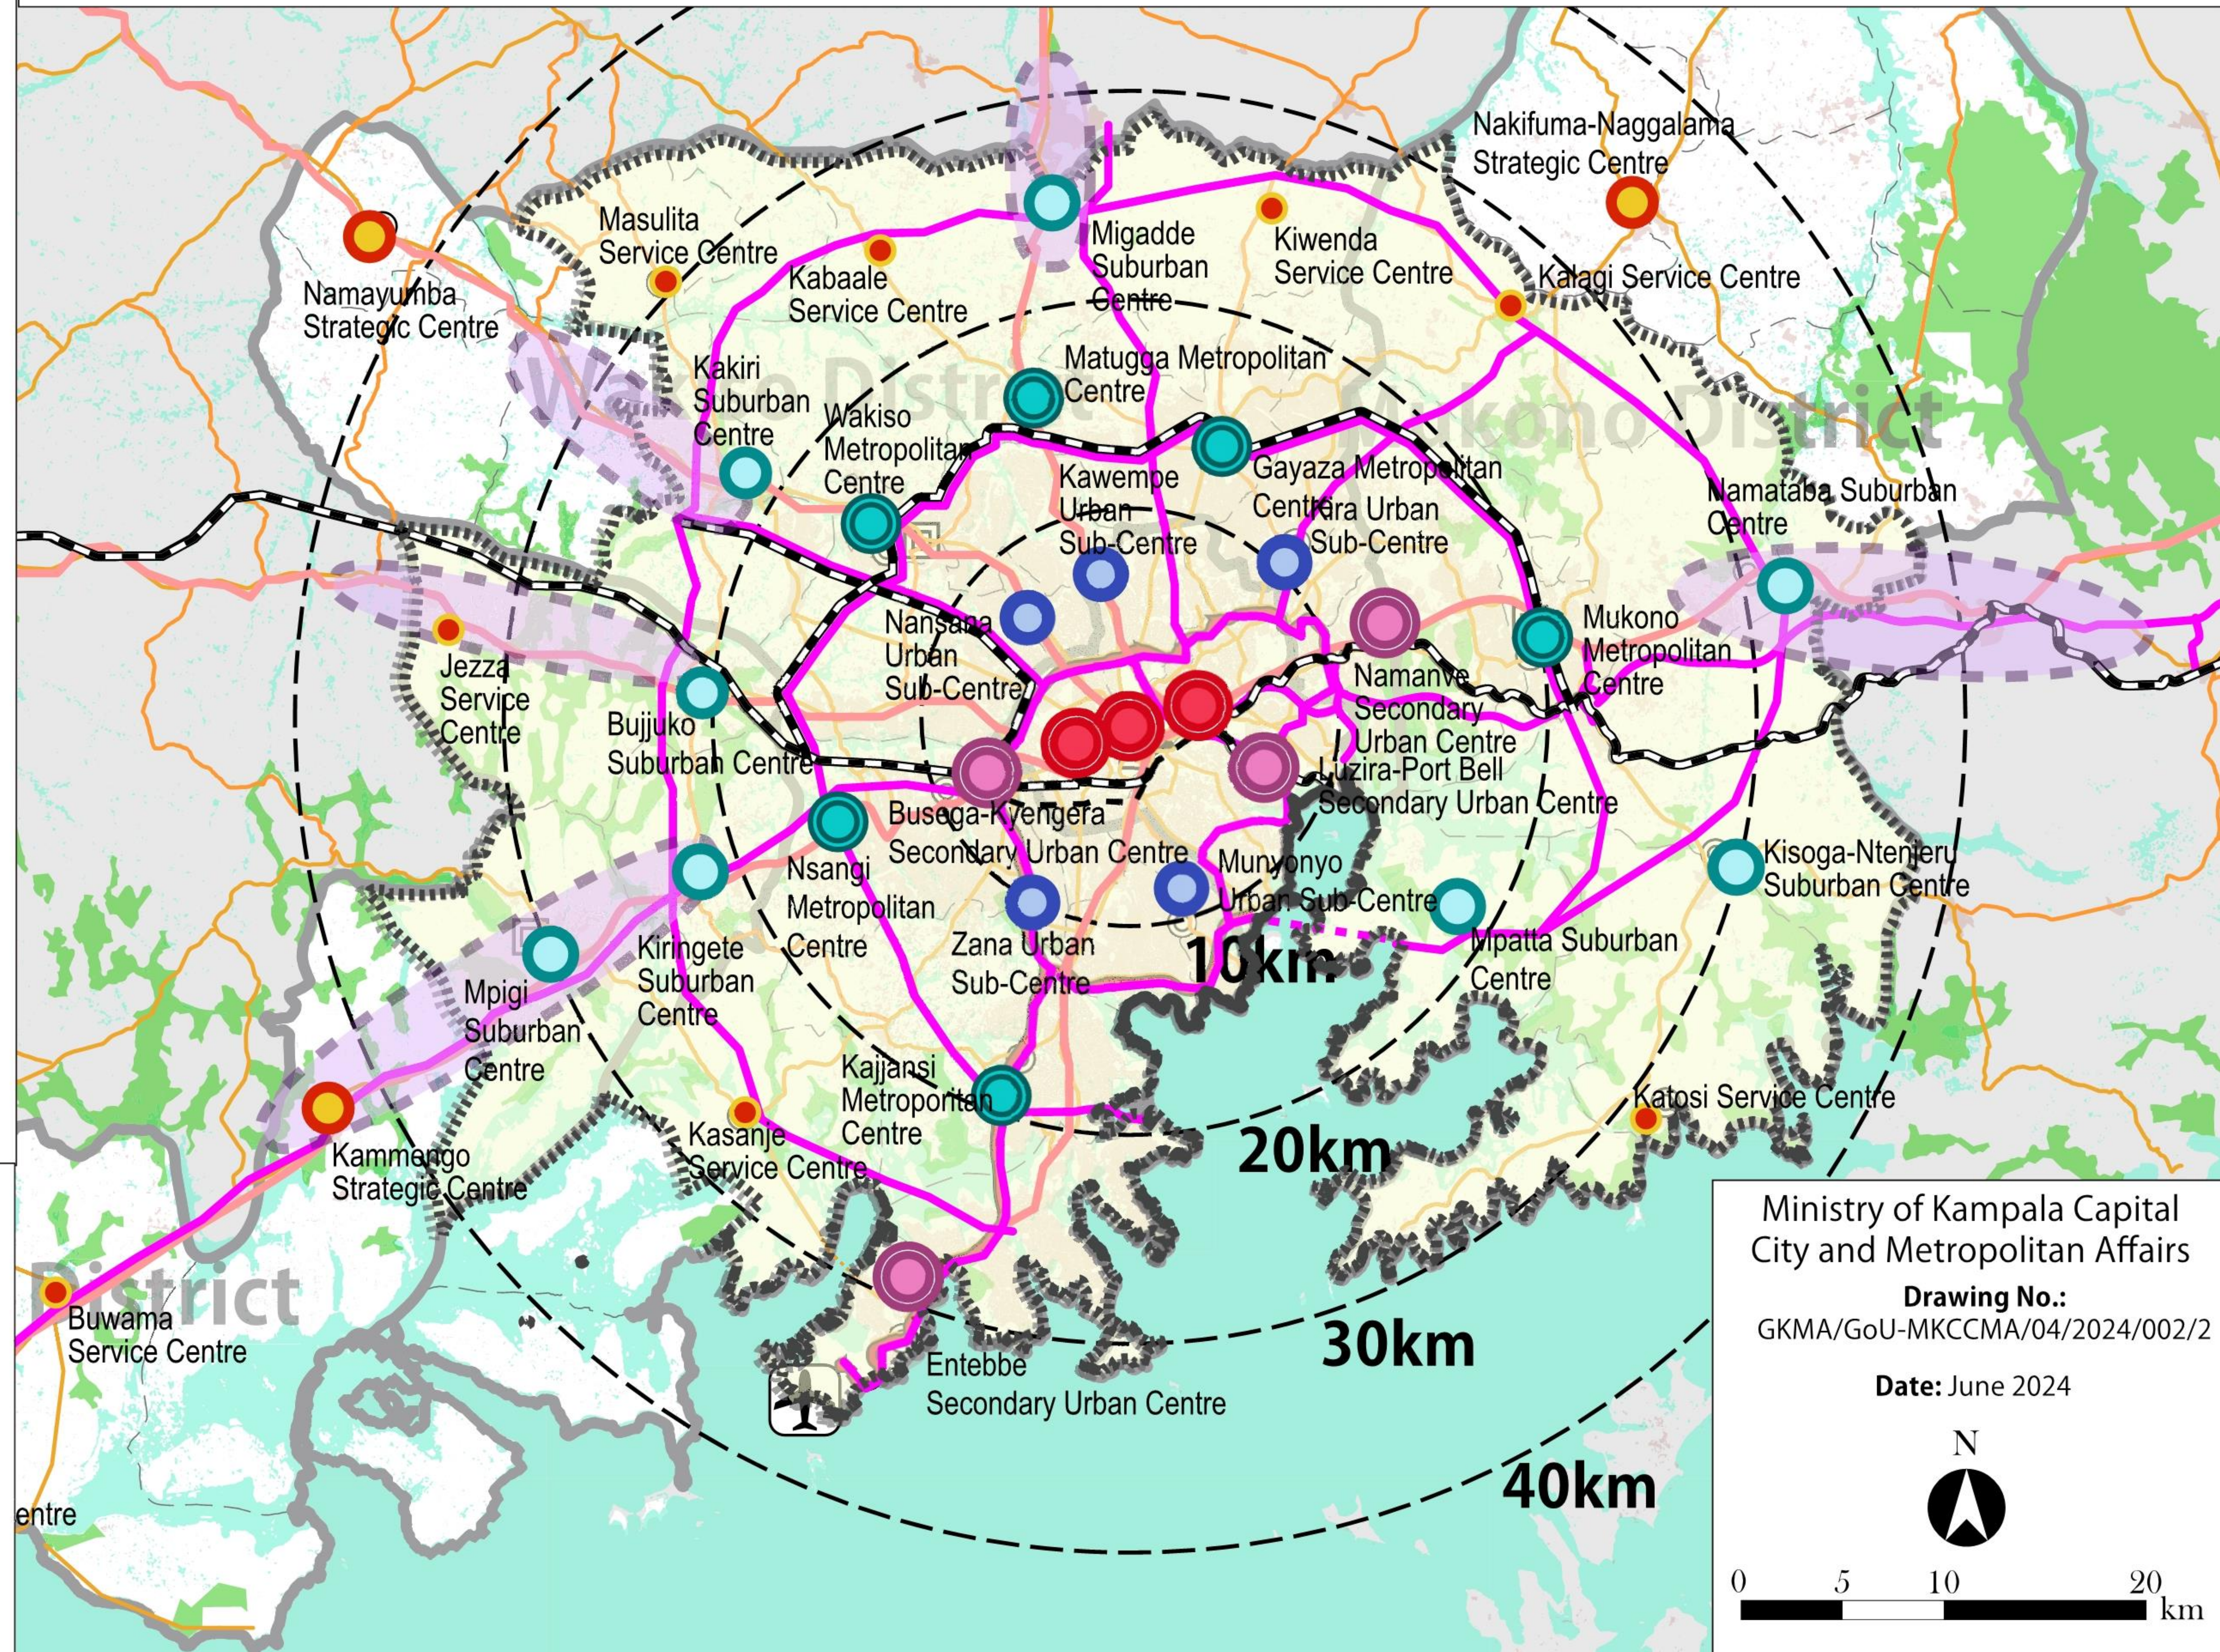

Others

- District Boundaries
- Sub County Boundaries
- District Headquarters
- Municipal / Town Centres
- ✈ Airport
- Built-up Areas
- Protected Areas
- Water Bodies

In the Greater Kampala Urban Growth Area (GKUGA), a Future Urban Spatial Structure is composed of the following spatial elements:

- Different types and locations of urban centres and industrial growth corridors,
- Arterial roads, expressways and public transportations (railway, MRT, LRT and BRT Lines), and
- Protected areas (wetlands and forest reserves).

As shown in Plan Map 2, the formation of the poly-centric urban spatial structure is recommended for the future of GKUGA.
